

NGUYEN VIET THAI

Full-Stack Developer (Node.js / React)

Harrisburg, PA, USA | (223) 373-6328 | thainv2501@gmail.com | <https://www.linkedin.com/in/thainv2501>

PROFESSIONAL SUMMARY

Full-stack developer with 3+ years building microservice-based web platforms (Node.js, ExpressJS, NestJS, React) for e-learning, KYC/fintech, and e-commerce clients across Vietnam, the US, and Malaysia. Experienced integrating AI-powered features and event-driven architecture (RabbitMQ, Kafka, Socket.IO). Fluent in English (IELTS 6.5).

WORK EXPERIENCE

Full-Stack Developer — AIVN

Nov 2024 – Present

E-learning platform for Vietnamese students & teachers — AI-powered grading, question generation, and speaking evaluation

- Engineered ExpressJS APIs and ReactJS features integrating Python-based AI services (speaking assessment, difficulty grading, auto question generation), supporting 200 000 active users
- Designed and maintained RabbitMQ messaging and Socket.IO real-time channels between microservices, processing 100 000 messages/day
- Owned core features and production hotfixes, resolving critical issues per month and reducing incident response time
- Reviewed and validated code across a team of 6 developers, improving release quality and cutting post-release bugs
- Optimized core business logic and query performance, reducing key workflow processing time

Back-End Developer — VMO Holdings

Sep 2023 – Nov 2024

KYC platform for a US client — identity document validation and verification, integrated with third-party providers

- Built ExpressJS APIs for user verification and admin management workflows using microservice architecture with RabbitMQ
- Integrated third-party identity-verification services, reducing manual document review time
- Improved admin management efficiency through logic and query optimization

E-commerce platform for a Malaysian client — Shopee-style marketplace

- Engineered NestJS APIs for admin order and store management within a Kafka-based microservice architecture
- Reduced order/inventory data mismatches by redesigning core order-history and stock-tracking logic

Software Development Intern — FPT Software

Jun 2022 – Sep 2022

- Practiced front-end fundamentals (HTML, CSS, JavaScript, jQuery, AJAX) and back-end basics (MySQL, Java web)
- Completed introductory Japanese language training as part of the internship program

SKILLS

Languages/Frameworks: Node.js, Express.js, NestJS, React, JavaScript

Databases: MySQL, PostgreSQL, MongoDB, Redis

Architecture & Messaging: Microservices, RabbitMQ, Kafka, Socket.IO, REST APIs

Tools: Git, Docker, Jira, AWS (familiar)

Languages: English (IELTS 6.5), Vietnamese (native)

EDUCATION

B.S. in Software Engineering — FPT University

Sep 2019 – Sep 2023, Hanoi, Vietnam

GPA: 3.2/4

Master. in Computer Science — Harrisburg University

Aug 2026 – Aug 2028, Harrisburg, US

GPA: N/A

CERTIFICATIONS & AWARDS

- Back End Development and APIs — freeCodeCamp, 2023
- Software Development Lifecycle — Coursera, 2021
- Web Design for Everybody: Basics of Web Development & Coding — Coursera, 2020
- Top 5, "Crafting ESG Solutions on Hedera Guardian" Hackathon, 2023
